BILL NUMBER: AB 3048 CHAPTERED
BILL TEXT

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 3099.2 of the Labor Code is amended to read:

3099.2. (a) (1) Persons who perform work as electricians shall become certified pursuant to Section 3099 by the deadline specified in this subdivision. After the applicable deadline, uncertified persons shall not perform electrical work for which certification is required.

(2) The deadline for certification as a general electrician or fire/life safety technician is January 1, 2006, except that persons who applied for certification prior to January 1, 2006, have until January 1, 2007, to pass the certification examination. The deadline for certification as a residential electrician is January 1, 2007, and the deadline for certification as a voice data video technician or a nonresidential lighting technician is January 1, 2008. The California Apprenticeship Council may extend the certification date for any of these three categories of electricians up to January 1, 2009, if the council concludes that the existing deadline will not provide persons sufficient time to obtain certification, enroll in an apprenticeship or training program, or register pursuant to Section 3099.4.

(3) For purposes of any continuing education or recertification requirement, individuals who become certified prior to the deadline for certification shall be treated as having become certified on the first anniversary of their certification date that falls after the certification deadline.

(b) (1) Certification is required only for those persons who perform work as electricians for contractors licensed as class C-10 electrical contractors under the Contractors' State License Board Rules and Regulations.

(2) Certification is not required for persons performing work for contractors licensed as class C-7 low voltage systems or class C-45 electric sign contractors as long as the work performed is within the scope of the class C-7 or class C-45 license, including incidental and supplemental work as defined in Section 7059 of the Business and Professions Code, and regardless of whether the same contractor is also licensed as a class C-10 contractor.

(3) Certification is not required for work performed by a worker on a high-voltage electrical transmission or distribution system owned by a local publicly owned electric utility, as defined in Section 224.3 of the Public Utilities Code; an electrical corporation, as defined in Section 218 of the Public Utilities Code; a person, as defined in Section 205 of the Public Utilities Code; or a corporation, as defined in Section 204 of the Public Utilities Code; when the worker is employed by the utility or a licensed contractor principally engaged in installing or maintaining transmission or distribution systems.

(c) The division shall establish separate certifications for general electrician, fire/life safety technician, residential electrician, voice data video technician, and nonresidential lighting technician.

(d) Notwithstanding subdivision (a), certification is not required for registered apprentices performing electrical work as part of an

apprenticeship program approved under this chapter, a federal Office of Apprenticeship program, or a state apprenticeship program authorized by the federal Office of Apprenticeship. An apprentice who is within one year of completion of his or her term of apprenticeship shall be permitted to take the certification examination and, upon passing the examination, shall be certified immediately upon completion of the term of apprenticeship.

(e) Notwithstanding subdivision (a), certification is not required for any person employed pursuant to Section 3099.4.

(f) Notwithstanding subdivision (a), certification is not required for a nonresidential lighting trainee (1) who is enrolled in an on-the-job instructional training program approved by the Chief of the Division of Apprenticeship Standards pursuant to Section 3090, and (2) who is under the onsite supervision of a nonresidential lighting technician certified pursuant to Section 3099.

(g) Notwithstanding subdivision (a), the qualifying person for a class C-10 electrical contractor license issued by the Contractors' State License Board need not also be certified pursuant to Section 3099 to perform electrical work for that licensed contractor or to supervise an uncertified person employed by that licensed contractor pursuant to Section 3099.4.

(h) For the purposes of this section, "electricians" has the same meaning as the definition set forth in Section 3099.

SEC. 1.5. Section 3099.2 of the Labor Code is amended to read:

3099.2. (a) (1) Persons who perform work as electricians shall become certified pursuant to Section 3099 by the deadline specified in this subdivision. After the applicable deadline, uncertified persons shall not perform electrical work for which certification is required.

(2) The deadline for certification as a general electrician or fire/life safety technician is January 1, 2006, except that persons who applied for certification prior to January 1, 2006, have until January 1, 2007, to pass the certification examination. The deadline for certification as a residential electrician is January 1, 2007, and the deadline for certification as a voice data video technician or a nonresidential lighting technician is January 1, 2008. The California Apprenticeship Council may extend the certification date for any of these three categories of electricians up to January 1, 2009, if the council concludes that the existing deadline will not provide persons sufficient time to obtain certification, enroll in an apprenticeship or training program, or register pursuant to Section 3099.4.

(3) For purposes of any continuing education or recertification requirement, individuals who become certified prior to the deadline for certification shall be treated as having become certified on the first anniversary of their certification date that falls after the certification deadline.

(b) (1) Certification is required only for those persons who perform work as electricians for contractors licensed as class C-10 electrical contractors under the Contractors' State License Board Rules and Regulations.

(2) Certification is not required for persons performing work for contractors licensed as class C-7 low voltage systems or class C-45 electric sign contractors as long as the work performed is within the scope of the class C-7 or class C-45 license, including incidental and supplemental work as defined in Section 7059 of the Business and Professions Code, and regardless of whether the same contractor is

also licensed as a class C-10 contractor.

(3) Certification is not required for work performed by a worker on a high-voltage electrical transmission or distribution system owned by a local publicly owned electric utility, as defined in Section 224.3 of the Public Utilities Code; an electrical corporation, as defined in Section 218 of the Public Utilities Code; a person, as defined in Section 205 of the Public Utilities Code; or a corporation, as defined in Section 204 of the Public Utilities Code; when the worker is employed by the utility or a licensed contractor principally engaged in installing or maintaining transmission or distribution systems.

(c) The division shall establish separate certifications for general electrician, fire/life safety technician, residential electrician, voice data video technician, and nonresidential lighting technician.

(d) Notwithstanding subdivision (a), certification is not required for registered apprentices performing electrical work as part of an apprenticeship program approved under this chapter, a federal Office of Apprenticeship program, or a state apprenticeship program authorized by the federal Office of Apprenticeship. An apprentice who is within one year of completion of his or her term of apprenticeship shall be permitted to take the certification examination and, upon passing the examination, shall be certified immediately upon completion of the term of apprenticeship.

(e) Notwithstanding subdivision (a), certification is not required for any person employed pursuant to Section 3099.4.

(f) Notwithstanding subdivision (a), certification is not required for a nonresidential lighting trainee (1) who is enrolled in an on-the-job instructional training program approved by the Chief of the Division of Apprenticeship Standards pursuant to Section 3090, and (2) who is under the onsite supervision of a nonresidential lighting technician certified pursuant to Section 3099.

(g) Notwithstanding subdivision (a), the qualifying person for a class C-10 electrical contractor license issued by the Contractors' State License Board need not also be certified pursuant to Section 3099 to perform electrical work for that licensed contractor or to supervise an uncertified person employed by that licensed contractor pursuant to Section 3099.4.

(h) Commencing July 1, 2009, the following shall constitute additional grounds for disciplinary proceedings, including suspension or revocation of the license of a class C-10 electrical contractor pursuant to Article 7 (commencing with Section 7090) of Chapter 9 of Division 3 of the Business and Professions Code:

(1) The contractor willfully employs one or more uncertified persons to perform work as electricians in violation of this section.

(2) The contractor willfully fails to provide the adequate supervision of uncertified workers required by paragraph (3) of subdivision (a) of Section 3099.4.

(3) The contractor willfully fails to provide adequate supervision of apprentices performing work pursuant to subdivision (d).

(i) The Chief of the Division of Apprenticeship Standards shall develop a process for referring cases to the Contractors' State License Board when it has been determined that a violation of this section has likely occurred. On or before July 1, 2009, the chief shall prepare and execute a memorandum of understanding with the Registrar of Contractors in furtherance of this section.

(j) Upon receipt of a referral by the Chief of the Division of

Apprenticeship Standards alleging a violation under this section, the Registrar of Contractors shall open an investigation. Any disciplinary action against the licensee shall be initiated within 60 days of the receipt of the referral. The Registrar of Contractors may initiate disciplinary action against any licensee upon his or her own investigation, the filing of any complaint, or any finding that results from a referral from the Chief of the Division of Apprenticeship Standards alleging a violation under this section. Failure of the employer or employee to provide evidence of certification or trainee status shall create a rebuttable presumption of violation of this provision.

(k) For the purposes of this section, "electricians" has the same meaning as the definition set forth in Section 3099.
