

POWER QUALITY

Power Quality—an overview

Instructor: Wayne McNamee

An overview and explanation of power quality and the equipment used to ensure good power quality. The quality of power needed to supply this complex equipment is much more critical today than in the past. Class hours are good towards electrical certification renewal requirements.

Mondays, September 13 & 20, 2010

5:00 pm to 8:00 pm

At the ABC So-Cal Training Center

ABC Members \$140 - Non-Members \$200

Subscribing Employers (companies using the apprenticeship programs) may send **two (2) journeyman at no charge to the company.**

Class good for 6 hours credit toward Electrical Certification Renewal.

There will be no refunds given on cancellations after the reservation deadline date of one week prior to the start of class. Anyone who has made a reservation and does not attend the event without canceling by the above referenced date shall be billed for the full amount, including JM registered at no charge to the company. All classes are subject to cancellation if a **minimum number of attendees is not reached by the deadline date.**
