

SAFETY DAY AT ABC

Saturday, June 5, 2010
6:30 AM to 2:30 PM

at the ABC Training Center
(continental breakfast & lunch included)

MAKE SURE YOUR EMPLOYEES GET THE SAFETY TRAINING THEY NEED!

- Scaffolding Safety
- Fall Protection
- Lock out/Tag out
- Powder Accuated Tools
- Scissor & Boom Lift Safety
- Heat Stress (HIPP)

**Attendees must arrive by
6:30 am
For sign-in & orientation**

**DONUTS & LUNCH
PROVIDED!**

**register
early!**

Why send your employees to SAFETY DAY?

- **Convenience** of acquiring multiple safety awareness certificates of completion
- **Protects** your company in the event of accident or injury from possible large Cal/OSHA fines
- **Increases** your employees' awareness of proper safety procedures
- **Provides** training your company may not be currently providing, putting your employees and your company assets at risk

ABC contractors speak out about Safety Day at ABC:

SAFETY DAY at ABC was a very informative and helpful tool to our company's safety program. The fact that we were able to get certificates on different tools and equipment was an added bonus. This is something that companies should send all of their employees to. I am looking forward to the next training classes.

Mike Peterson, Project Manager, Fugate Electrical

SAFETY DAY was extremely popular and beneficial because it offered multiple certifications on the same day. Our employees were meeting training requirements, and minimizing time away from their family on a weekend. I encourage companies to send employees to Safety Day.

Michael Littlejohn, HR/Safety Director, Continental Plumbing, Inc.
